

# {the picturebooth}

www.thepicturebooth.net    info@thepicturebooth.net

- a portable 6ft by 3ft booth (the only requirement for the picturebooth is one power outlet).
- the guests enter into the booth, sit in front of the festive red velvet curtain, and take their own photos. (the curtain backdrop can be customized to the event upon request).
- the picturebooth is manned by at least one of the founders. we may gently encourage guests to participate, but once inside, the guests are on their own to be creative and to have fun!
- as many as 9 people have been known to pile into the booth for one photo!
- guests are encouraged to take as many pictures as they wish. there is no limit on the amount of photos taken throughout the event.
- we set up a half hour before the event begins in a pre-designated location (we encourage the main event room for maximum success!)
- the picturebooth uses the latest in professional digital SLR photography and studio lighting, which results in long lasting, and the highest quality digital images delivered to the guests through thepicturebooth.net (note: instant prints are not provided).
- the event host receives a DVD that includes every image taken at the event.
- within 24 hours of the event, all picturebooth photos are posted to a page on www.thepicturebooth.net
- the guests will enjoy a lively slideshow of every picture taken in the booth. digital files of any or all photos are available for FREE.
- many want a more lasting memento, therefore all guests have access to our easily navigable and reasonably priced print ordering system.
- the site is up for 6 months yet images are available after that time per request.
- great for any event, indoors or out, including corporate events, birthday parties, weddings, conferences, benefits, and children's parties.
- the picturebooth is highly portable and we happily serve areas outside of the new york metropolitan area.
- the picturebooth is run by 2 professional photographers whose clients include the NY Times, Life Magazine, Nickelodeon, and Universal Studios.
- the picturebooth has added fun, charm and creativity to events hosted by Russell Simmons, 60 Minutes, Morgan Stanley, and New York Magazine.
